

## **Truitt, Eubank Honored by NAFB For News Coverage**

The National Association of Farm Broadcasting gave special recognition to Gary Truitt and Andy Eubank both with Hoosier Ag Today. The awards, presented at the association's annual convention in Kansas City, recognized the two veteran broadcasters for "journalistic excellence." Founded in 2006, Hoosier Ag Today has quickly become the most listened to source for agricultural information in the Hoosier state, according to the 2008 AMR study. Truitt and Eubank regularly provide comprehensive and in-depth coverage of the issues impacting Indiana farmers and rural residents. In addition to radio coverage, HAT also operates a daily e-newsletter, interactive blog, and popular web site.
